SENIOR PRODUCT MANAGER

P V S N PAWAN SASTRY

Hyderabad, India

linkedin.com/in/pawan-sastry | pawansastry47@gmail.com

Summary

Product leader with 15+ years in B2B enterprise SaaS, specializing in Data, Analytics, ML & AI products across CRM, Platform, FinTech, and Marketing domains. Own multi-product portfolios (~$75M ARR) end to end: defining strategy, building 0-to-1, scaling 1-to-N, and driving revenue, efficiency, and customer trust.

Key Achievements

- **~$15M ARR** contributed to a ~$64M AI SKU via the Nurturing AI agent (Campaign, Message & Decision AI with human oversight and guardrails); campaign creation +40% since launch.
- **Data & Analytics:** Governed metric layer, Multi-Touch Attribution, and Ad Spend/ROI (account retention +3.5%, revenue retention +8%); launched Knock Data Cloud (DaaS, $93K ARR / 785 sites).
- **~$720K ARR** Knock Mobile app — rebuilt native iOS in React Native and launched Android (~450 sites, ~110K units).
- **82% support-ticket reduction** (17 → 3 monthly, sustained 6+ months) by resolving hybrid-auth failures; opt-in 13% → 18% on a rebuilt TCPA consent platform.
- **~$1M+ annual savings** from ServiceNow consolidation and software-provisioning automation at CBRE.
- **95% ML accuracy, 40% faster data collection** — defined and launched an ML extraction framework with ML engineering at FactSet.

Core Skills

Product: Data & analytics products, semantic/metric layers, multi-touch attribution, self-service analytics (DaaS), KPI governance, agentic & GenAI products, AI-human workflows, IDV & consent (Plaid/Cleare, TCPA), platform reliability & SLAs, 0→1 & 1→N launches, mobile (React Native)

Technical: Snowflake, dbt, SQL, Metabase, ODS / Semantic Layers, REST APIs & Webhooks, Event Instrumentation, LLM & Agentic Workflows (Claude, MCP), Azure DevOps / TFS, Jira, GitHub, Figma, AWS & GCP

Leadership: Product strategy & roadmap, build-vs-buy & investment cases, cross-org prioritization, stakeholder management, executive & C-suite communication, team management & mentorship, hiring & interviewing, customer & partner engagement, Agile / SAFe

Professional Experience

Senior Product Manager | RealPage India

Mar 2024 – Present

Lead a team of 3 direct reports; run annual planning, QBRs, and customer roadmap sessions.

- **Portfolio Strategy:** Own strategy and roadmap across Platform, Data & Analytics, Nurturing AI, and Mobile within Knock (**~$75M ARR**, **10,000+** property management companies), enabling customers to trust their data, automate engagement, and act on marketing spend.
- **Agentic AI for Customer Engagement:** Drove the Nurturing AI agent (Campaign, Message & Decision AI) with human oversight and guardrails, delivering campaign recommendations, personalized messaging, and performance analytics with feedback loops; increased campaign creation **40%** since launch and contributed **~$15M ARR**.
- **Unified Renter & Marketing Analytics:** Standardized lead, engagement, and ad-spend metrics into a governed metric layer across Analytics, RM/BI, and customer self-service, enabling consistent reporting, Multi-Touch Attribution, and Ad Spend/ROI analytics; delivered **+3.5%** account retention and **+8%** revenue retention.
- **Data Platform & DaaS:** Launched Knock Data Cloud, providing self-service reporting on governed data, backed by a re-architected Snowflake + dbt model that cut query latency **70%** and cloud costs **46%**; reached **$93K ARR** across **785 sites**.
- **Compliance & Consent:** Re-architected TCPA SMS opt-in as a cross-channel consent platform rather than fragmented channel-specific flows; increased opt-in **13% → 18%**, doubled engagement, and extended consent capture across agent-driven, in-call, and voice flows.
- **Platform Reliability:** Resolved the root cause of hybrid-auth failures behind **35%** of support tickets by standardizing the auth framework and redesigning user-assignment workflows; monthly tickets fell **82%** (17 → 3), sustained for 6+ months.
- **Mobile:** Rebuilt the native iOS app in React Native and launched Android, enabling leasing agents to run tours, create prospects, and complete on-site ID verification; supported **~$720K ARR** across **~450 sites** and **~110K units**.

Senior Product Manager | CBRE South Asia Ltd *Jan 2023 – Mar 2024*

- **Software Provisioning Automation:** Owned end-to-end automated software provisioning across the organization, removing manual overhead and saving **~$600K annually**.
- **Platform Consolidation:** Consolidated two overlapping ServiceNow instances into a single enterprise platform, cutting duplicate license spend **~$440K annually**.
- **Service Catalog Design:** Shipped **180+ workflows** as reusable building blocks, turning inconsistent per-team processes into a scalable, governed platform.
- **GTM & Enterprise Adoption:** Owned the GTM and rollout strategy for upgrades reaching **thousands of users**, and led the operating-model shift to Agile across **6 teams**.

Senior Product Manager | Dell Technologies *Apr 2022 – Jan 2023*

- **Global Order Experience Platform:** Replaced fragmented per-region workflows with one standardized model, cutting order-fulfilment cycle time **20%**.

Product Manager | S&P Global *Aug 2019 – Mar 2022*

- **Portfolio Product Launch:** Launched a SAFe-aligned project-portfolio product to **60% adoption** across PMO teams by giving them a single view of portfolio health and delivery status.
- **Service Availability:** Drove CDN routing, load-balancing, and monitoring in collaboration with SRE for the logging service underpinning every product in the S&P ecosystem — reaching **99.1% availability** and cutting downtime from ~1–2/month to ~1–2/quarter.

Associate Product Manager | FactSet Research Systems *Dec 2011 – Aug 2019*

- **Platform Retirement & Modernization:** Owned the migration strategy that moved the business unit onto the next-gen collection application, sequencing cutover to protect data continuity.
- **ML-Driven Data Automation:** Partnered with ML engineering to define and launch an ML extraction framework hitting **95% accuracy**, cutting data-collection time **40%** and reducing manual effort at scale.
- **Data Quality & Deduplication:** Led a deduplication initiative that prevented **60%** of duplicate documents from entering the pipeline, improving downstream data integrity.
- **Dataset Coverage & Growth:** Translated client needs into collection priorities, contributing to **10% client-base growth** and 10% higher collection automation.

Education & Certifications

Master of Computer Applications (MCA) | Osmania University | 2011

Professional Scrum Product Owner (PSPO-II) • Pragmatic Institute – Product Management • SAFe Product Owner / Product Manager • Certified Scrum Master • AWS Cloud Practitioner • Google Cloud Digital Leader

Awards

FactSet Incredible Employee of the Year 2015 (1 of 15 of ~9,500) • FactSet Employee of the Quarter (9+ times) • RealPage Realstar of the Quarter (multiple)
